Accordingly, copies of these types of documents are not being supplied in connection with this application. The listed documents are being submitted in compliance with 37 CFR §1.97(b), within three (3) months of the filing date of the application.

### **RELEVANCE OF EACH DOCUMENT**

Document A1 discloses a device comprising: extraction means for extracting a line image from image data and drawing instructions; and image conversion means for converting the line image into an image of a predetermined format. The image conversion means is featured in that it converts the line image extracted by the extraction means into a line image wherein lines are thicker than a predetermined line and have a predetermined color.

Document A2 discloses an image processing method and an image storage medium. A preprocessing section preprocesses image information, and then a conversion section converts the image information into data suitable for output from an output device. The preprocessing section checks the conditions corresponding to at least one of the attributes (e.g., density, thickness, color, size, font type) of the characters or lines of the image information. Based on the results of this check, the thickness of the lines or the density is changed.

An English translation of the foreign-language document is not readily available. However, the absence of such translation does not relieve the PTO from its duty to consider

the submitted foreign language document (37 CFR §1.98 and MPEP §609). An English language abstract is provided herewith.

Applicant respectfully requests that any listed document be considered by the Examiner and be made of record in the present application and that an initialed copy of Form PTO/SB/08 be returned in accordance with MPEP §609.

The Commissioner is hereby authorized to charge any additional fees which may be required regarding this application under 37 CFR §§ 1.16-1.17, or credit any overpayment, to Deposit Account No. 19-0741.
